

PArM
MALAYSIAN SOCIETY OF ARBORISTS
PIONEER IN TROPICAL ARBORICULTURE

The Malaysian Society of Arborist or better known by its local acronym PArM (Persatuan Arborist Malaysia) is organizing an International Conference on Tropical Arboriculture (INTAC KL 2018) in September, 2018 with the theme of Urban Trees: Safety, Resiliency & Sustainability. The Conference will be held at Sunway Putra Hotel Kuala Lumpur from 25th until 27th September 2018.

INTAC KL 2018 with the theme of Urban Trees: Safety, Resiliency & Sustainability will serve as a forum for likeminded stakeholders to discuss, deliberate and share knowledge on the issues of managing tropical trees in urban areas within the context of their sustenance and the benefits while keeping them safe and healthy.

This year, the INTAC KL 2018 will offer more than 30 oral presentations, demonstrations and workshops presented by practitioners and researchers from the arboriculture fraternity.

In conjunction with the event, the organizer has taken the green initiative to make this conference a "Low Carbon" event by having two tree saplings planted for each number of confirmed participants. The saplings will be planted at the Ayer Hitam Forest Reserve prior to the event.

A parallel event Malaysia Tree Climbing Championship 2018 (MTCC 2018) will be held in conjunction with the conference. Interested persons can contact the secretariat for further information.

OBJECTIVES

- To provide opportunities for networking and collaboration among stakeholders in tropical arboriculture.
- To provide an avenue for a better understanding of functions and benefits of urban trees towards ensuring their resiliency, safety, and sustainability.
- To propose resolution(s) for formulation of national policy related to the improvement of arboriculture industry in Malaysia.

CALL FOR ABSTRACT

You are invited to submit abstract for INTAC KL 2018 Conference no later than 30th June 2018. Notification of acceptance for abstract will be made by 31st July 2018. Topics should focus on Urban Trees, their Resiliency and Sustainability simultaneously maintaining environmental equilibrium between development and society needs.

Sub -Theme

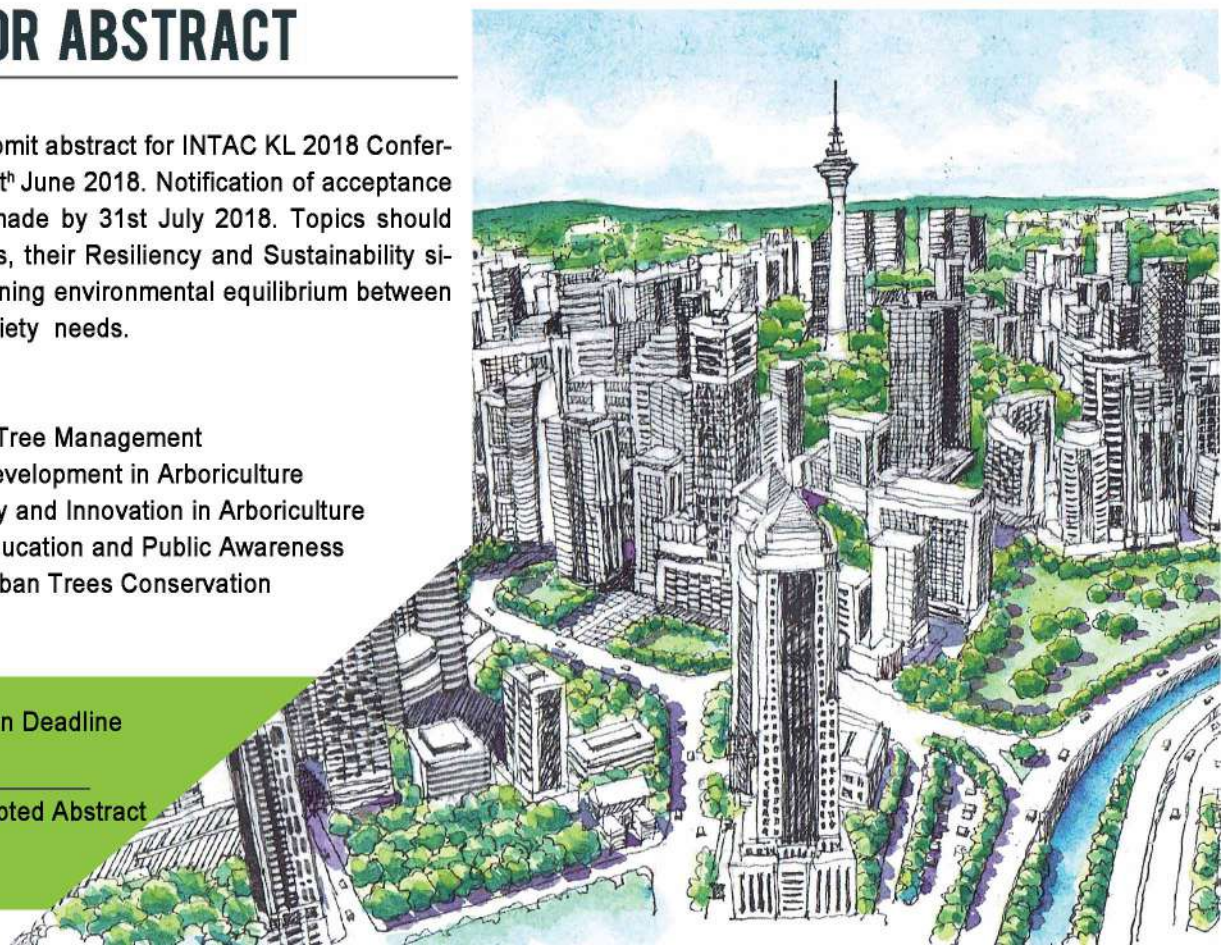

- i. Policy in Urban Tree Management
- II. Research and Development in Arboriculture
- III. Practices, Safety and Innovation in Arboriculture
- IV. Arboriculture Education and Public Awareness
- V. Heritage and Urban Trees Conservation

Abstract Submission Deadline
30th June 2018

Notification of Accepted Abstract
31st July 2018

WHO SHOULD ATTEND

**Arborists
Horticulturists
Landscape Architects
Planners
Engineers
Urban Foresters
Researchers
Developers
Policy Makers
Private Companies
Academics
Interested individuals**
